Assessment Requirements for CUAPYR413 Plan outdoor fireworks displays

Release: 1

Assessment Requirements for CUAPYR413 Plan outdoor fireworks displays

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- design, plan and document a complete fireworks display according to at least two different client briefs.

In the course of the above, the candidate must:

- identify fireworks that are faulty or not quality assured
- develop a proposal for a client that takes account of creative and technical issues
- develop:
 - a safety management system that includes operational and emergency procedures
 - organisational policy relating to outdoor fireworks displays
- implement:
 - a quality system for providing fireworks displays
 - organisational procedures for purchasing, transporting, storing and handling fireworks
- communicate effectively in a negotiation with client about requirements.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- issues and challenges that typically arise when planning outdoor fireworks displays, and strategies to resolve them
- issues that need to be addressed in safety management systems
- current industry practices that must be considered when operating outdoor fireworks displays
- state or territory codes of practice in relation to risk and systems management

- legislative requirements in relation to purchasing, transporting, storing and handling fireworks
- licensing requirements that relate to the operation of fireworks displays
- commonly used fireworks that include cold sparks
- public liability and workers' compensation requirements in relation to operating fireworks displays
- legislative requirements in relation to planning, designing and obtaining approval for conducting fireworks displays
- statutory requirements and current industry best practice in relation to the operation of outdoor fireworks displays.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- applicable legislative, administrative, specific technical material and prescribed forms and documents
- a set of client needs to develop a fireworks display brief
- a typical client brief for planning a fireworks display.

Those seeking to assess competency in this unit must consult with the relevant state or territory licensing authority, and work within the requirements and guidelines set down by those authorities.

Significant health and safety issues impact on the delivery and assessment of skills in pyrotechnics. Assessment of these skills must therefore be undertaken in consultation with state or territory licensing authorities. Assessors must be aware of, and consult with authorities on matters regarding, safety of personnel, safety of crowds and spectators, storage and transportation of pyrotechnic materials, and weather conditions. Assessors may need to meet additional requirements where stipulated by state or territory regulations.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
