Assessment Requirements for CUASCU512 Investigate sculptural materials and processes

Release: 1

Assessment Requirements for CUASCU512 Investigate sculptural materials and processes

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- investigate at least two different sculptural materials and processes to create a coherent body of sculptural work.

In the course above, the candidate must:

- research the properties, capabilities and use of an extensive range of sculpture materials
- create sculptural work which demonstrates:
 - new or refined ways of working with materials through a process of experimentation
 - technical proficiency in the use of selected materials and processes
 - integration of materials and processes into own style
 - use of safe and sustainable work practices.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- intellectual property requirements relevant to producing sculptural works
- reliable information sources about sculptural materials
- physical properties, characteristics, capabilities and storage requirements of a wide range of materials used to create sculpture
- how different materials and sculptural techniques combine to achieve different technical effects
- ways to use, adapt, combine and challenge the capabilities of an extensive range of sculptural materials to develop an individual professional style
- suppliers for an extensive range of sculptural materials used in professional practice
- function of safety data sheets
- key safety requirements for sculpture work.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- equipment, tools and materials used to produce sculptures
- credible information sources.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational educational and training legislation, frameworks and/or standards.
