Edit dialogue

Release: 1

Assessment Requirements for CUASOU408 Edit dialogue

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package version 2.0.

Performance Evidence

Evidence of the ability to:

- edit dialogue and sound for screen productions in collaboration with a production team
- review the quality of edited material against production requirements
- use the features of a range of industry standard sound editing software and equipment in line with production requirements and industry standards.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe the information that is typically found in production documentation and requirements
- explain the main techniques and methods of dialogue and sound editing
- explain the basic principles of synchronisation and how it is used in dialogue and sound editing
- explain how sound is locked to picture
- explain the issues and challenges that typically arise when editing dialogue and sound, and how to address them
- explain the work health and safety (WHS) procedures and principles that relate to sound editing.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in creative arts industry environments. The assessment environment must include access to:

- sound editing software and equipment
- screen productions where dialogue and sound editing are required

- production documentation
- interaction with others.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational educational and training legislation, frameworks and/or standards.
