Assessment Requirements for CUASOU502 Manage the operation of stage monitor systems

Modification History

Release	Comments
Release 2	This version released with CUA Creative Arts and Culture Training Package version 2.0. Updated assessment conditions section. Updated modification history section to reflect changed name of training package.
Release 1	This version first released with CUA Creative Arts and Culture Training Package version 1.0.

Performance Evidence

Evidence of the ability to:

- plan, set up and operate stage monitor systems for at least two productions, meeting production and performer requirements
- work collaboratively.

Note: If a specific volume or frequency is not stated, then evidence must be provided for each of the above points at least once.

Knowledge Evidence

To complete the unit requirements the individual must:

- describe the types of information required to plan stage monitor systems
- describe the features of a range of stage monitor systems and how they are used in different contexts
- provide examples of safety issues associated with the set-up and installation of stage monitor systems
- in the context of stage monitor systems, describe issues that need to be addressed in different performance situations in relation to foldback mixing, and equalising foldback speakers
- suggest ways of addressing issues and challenges that typically arise when operating stage monitor systems in a live production environment.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in creative arts industry environments. The assessment environment must include access to:

- stage monitor equipment
- a venue where a stage monitor system can be set up and operated.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational educational and training legislation, frameworks and/or standards.
