Release: 2

Assessment Requirements for CUASTA411 Operate show control systems

Modification History

Release	Comments
Release 2	This version first released with CUA Creative Arts and Culture Training Package version 5.1. Version created to correct unit mapping error.
Release 1	This version first released with CUA Creative Arts and Culture Training Package version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- work collaboratively to program and operate a show control system to create the movement effects required in a show, presentation or installation on at least two occasions.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- features of, and process for selecting, files in standard show control systems
- issues and challenges that typically arise when setting up and operating show control systems, and solutions to address them
- internet protocol (IP) connectivity in the context of operating show control systems
- industry technology used to automate the operation of shows and show control systems
- common rigging and staging elements used in shows.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- show control systems used for performances, presentations or installations.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
