Assessment Requirements for CUAVSS502 Implement vision system designs

Release: 2

Assessment Requirements for CUA VSS502 Implement vision system designs

Modification History

Release	Comments
Release 2	This version released with CUA Creative Arts and Culture Training Package version 2.0. Updated assessment conditions section. Updated modification history section to reflect changed name of training package.
Release 1	This version first released with CUA Creative Arts and Culture Training Package version 1.0.

Performance Evidence

Evidence of the ability to:

- interpret vision system designs and develop workable plans for the installation of equipment and accessories to meet requirements
- supervise the installation and operation of vision system equipment for at least one client, production or event
- work collaboratively.

Note: If a specific volume or frequency is not stated, then evidence must be provided for each of the above points at least once.

Knowledge Evidence

To complete the unit requirements the individual must:

- explain factors that need to be considered depending on whether vision systems are being installed on a temporary or permanent basis
- explain issues that need to be considered when implementing automated and interactive vision systems and those with multiple input sources and output and display devices
- explain technical requirements and constraints associated with installing and operating a range of vision systems
- describe costing and budget issues associated with implementing vision system designs
- describe typical formats for documenting vision system installation plans
- describe processes and procedures typically used to ensure version control for draft and final plans

- explain work health and safety issues to be considered when installing and operating vision systems.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in creative arts industry environments. The assessment environment must include access to:

- appropriate practice and performance space
- resources and equipment used to develop basic acting skills.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational educational and training legislation, frameworks and/or standards.
