CUAWHS313 Apply work health and safety practices in a live production environment

Release: 1

CUAWHS313 Apply work health and safety practices in a live production environment

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to follow work health and safety (WHS) requirements in live production environments such as stages, arenas, theatres, performance venues and galleries.

This unit applies to those who are required to identify their individual WHS responsibilities and implement procedures to work safely in a live production work context.

The National Standard for Licensing Persons Performing High Risk Work applies to persons performing dogging and rigging work. Completion of the following units is required for certification at either basic, intermediate or advanced levels:

- CPCCLDG3001 Licence to perform dogging
- CPCCLRG3001 Licence to perform rigging basic level
- CPCCLRG3002 Licence to perform rigging intermediate level
- CPCCLRG4001 Licence to perform rigging advanced level.

Different work tasks within a live production environment may fall within the definition of construction work. If so, people entering a construction site are required to complete the general induction training program specified by the National Code of Practice for Induction for Construction Work (Commonwealth of Australia, 2007).

Achievement of the unit 'CPCCWHS1001 Prepare to work safely in the construction industry' fulfils this requirement.

Users are advised to check with the relevant licensing authority for requirements.

Unit Sector

Regulation, licensing and risk – Work health and safety

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the</i>	<i>Performance criteria describe the performance needed to</i>

ELEMENT	PERFORMANCE CRITERIA
<i>essential outcomes.</i>	<i>demonstrate achievement of the element.</i>
1. Determine health and safety and legislative requirements	1.1 Identify roles, responsibilities and rights of different live production personnel according to jurisdictional health and safety legislative requirements 1.2 Determine duty of care requirements for different live production personnel 1.3 Determine first aid and emergency procedures, including psychological first-aid, for different live production environments 1.4 Identify and assess safe work practices and mental well-being practices in live production environments 1.5 Identify and assess roles of health and safety personnel in live production environments, including mental health 1.6 Develop and maintain own knowledge of applicable WHS legislation, codes of practice and workplace policies and procedures
2. Implement safe work practices	2.1 Apply legislative requirements, safety documentation, signage and symbols to work tasks 2.2 Use personal protective equipment and other measures as required to prevent injury and impairment 2.3 Use tools, equipment and materials according to safe work practices 2.4 Participate in WHS consultative activities 2.6 Assess mental well-being risks and discuss mental health maintenance with personnel
3. Participate in hazard identification and risk assessment and control	3.1 Develop and maintain own knowledge of basic risk management principles 3.2 Identify and report hazards or WHS issues in the workplace to required personnel 3.2 Assess and control risks in line with workplace policies and procedures 3.3 Document risk control actions as required according to workplace policies and procedures 3.4 Contribute to reporting workplace WHS, hazard, accident and incident reports as required 3.5 Document and apply mental health and well-being strategies
4. Follow emergency procedures	4.1 Report emergencies and incidents promptly to required personnel and authorities according to workplace policies and procedures 4.2 Respond to emergencies in line with own level of

ELEMENT	PERFORMANCE CRITERIA
	responsibility 4.3 Implement evacuation procedures as required

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Reading	- Interprets textual information from a range of sources - Follows simple pictorial safety instructions - Follows simple safety instructions
Writing	Completes workplace documentation according to requirements
Oral Communication	- Relays information to others using clear and direct language - Identifies and clarifies key information and requirements using questioning and listening techniques
Teamwork	Works collaboratively with colleagues to keep workplace safe
Get the work done	Assesses situations to decide on action required
Planning and organising	Plans and completes a range of routine tasks in logical order
Problem solving	Selects the appropriate risk control measures based on risk assessment

Unit Mapping Information

New unit. No equivalent unit.

Assessment Requirements for CUAWHS313 Apply work health and safety practices in a live production environment

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- apply work health and safety (WHS) practices for at least one production.

In the course of the above, the candidate must:

- use required personal protective equipment (PPE) for the task
- identify and follow safety signs and symbols
- communicate identified WHS issues to required personnel
- identify and report hazards to physical wellbeing according to workplace requirements
- assess and control risks and document risk control measures according to workplace requirements
- follow procedures for responding to incidents and emergencies.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- WHS rights, responsibilities and duty of care requirements as they apply to own role, duty holders and common roles within a live production environment
- jurisdictional health and safety legislative requirements that include:
 - Australian Capital Territory: Work Health and Safety Act 2011
 - New South Wales: Work Health and Safety Act 2011
 - Northern Territory: Work Health and Safety Act (National Uniform Legislation) Act 2011
 - Queensland: Work Health and Safety Act 2011
 - South Australia: Work Health and Safety Act 2012
 - Tasmania: Work Health and Safety Act 2012
 - Victoria: Occupational Health and Safety Act 2004

- Western Australia: Occupational Health and Safety Act 1984.
- workplace health and safety roles in live production environments
- mental health and well being workplace procedures
- common safety signs and symbols
- procedures for reporting hazards, risks, incidents and accidents
- common hazards and major causes of accidents in live production environments
- common risks to physical wellbeing of self and others in live production environments
- risk control procedures relevant to own role and common roles within a live production environment
- potential emergency situations and response procedures.

Assessment Conditions

Skills in this unit must be demonstrated in a live production environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- workplace instructions and information relating to safe work practices
- productions to which safe work practices can be applied
- interaction with others.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational educational and training legislation, frameworks and/or standards. Where personal safety is a limiting factor, assessment may occur in a simulated work environment typical of those in a working environment in this industry.
