Assessment Requirements for CUAWOR301 Document equipment installation requirements

Release: 2

Assessment Requirements for CUAWOR301 Document equipment installation requirements

Modification History

Release	Comments
Release 2	This version released with CUA Creative Arts and Culture Training Package version 2.0. Updated assessment conditions section. Updated modification history section to reflect changed name of training package.
Release 1	This version first released with CUA Creative Arts and Culture Training Package version 1.0.

Performance Evidence

Evidence of the ability to:

- create working documents to support the installation of technical equipment in area of specialisation on at least two occasions
- correctly interpret plans and specifications related to the installation of technical equipment when creating working documents
- work collaboratively.

Note: If a specific volume or frequency is not stated, then evidence must be provided for each of the above points at least once.

Knowledge Evidence

To complete the unit requirements the individual must:

- describe the main features of plans and drawings used in the process of installing audio, lighting or vision system equipment
- describe how scale measurements are used in plans
- explain commonly used symbols and abbreviations found in plans, drawings and specifications related to the installation of technical equipment
- explain how basic formulas apply when documenting equipment installation requirements.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in creative arts industry environments. The assessment environment must include access to plans and specifications in relation to lighting, audio or vision system requirements.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational educational and training legislation, frameworks and/or standards.
