DEF43115 Certificate IV in Electronic Forensics

Release: 1

DEF43115 Certificate IV in Electronic Forensics

Modification History

Release	Comments
1	This qualification was released in DEF Defence Training Package release 1.0 and meets the Standards for Training Packages.

Qualification Description

This qualification has been designed to provide a package of broad and flexible competencies reflecting the workplace responsibilities to conduct a forensic investigation to lawfully establish evidence that is often found in digital storage mediums and computers. It qualifies individuals who apply a broad range of specialised knowledge and skills in varied contexts to undertake skilled work in Electronic Forensics.

No licensing, legislative or certification requirements apply to this qualification at the time of publication.

Packaging Rules

14 units of competency are required for this qualification:

- 5 core units
- 9 elective units

Choose a minimum of 7 elective units from the list below, of which at least 4 must be taken from Group A.

Choose the remaining 2 elective units from either the list below, or from elsewhere within this training package, or from another endorsed training package, or from an accredited course.

All elective units selected from outside this qualification must reflect the occupational and learning outcomes of this AQF qualification level. Seek further advice on selecting imported units of competency in the DEF Implementation Guide.

Elective units selected must not duplicate content already covered by other units in this qualification.

Core units	
DEFFOR001	Inspect, maintain and test electronic forensic equipment
DEFFOR002	Conduct initial electronic investigation

DEFFOR003	Gather and analyse information
DEFFOR004	Capture forensic photographic images
DEFFOR005	Compile and submit electronic forensic documentation
Group A: Specialisation units	
DEFFOR007	Set up, operate and maintain a portable audio recorder
DEFGEN023	Capture video images
ICTICT206	Install software application
ICTICT302	Install and optimise operating system software
ICTICT303	Connect internal hardware components
ICTSAS203	Connect hardware peripherals
ICTSAS205	Maintain IT system integrity
PSPLEGN401A	Encourage compliance with legislation in the public sector
Group B: General elective units	
DEFGEN006	Work with equity and diversity
