Assessment Requirements for DEFCMM005 Transmit and receive messages via voice systems

Release: 2

Assessment Requirements for DEFCMM005 Transmit and receive messages via voice systems

Modification History

Release 2. Modifications made to Assessment Conditions.

Release 1. This unit was released in DEF Defence Training Package release 1.0 and meets the Standards for Training Packages.

This unit supersedes and is equivalent to DEFCO406A Transmit and receive messages via voice.

- Unit code updated
- Content and formatting updated to comply with new standards
- All PC transitioned from passive to active voice
- Element 2 revised
- PC 1.1 removed

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and includes:

- identifying basic equipment faults
- operating communications equipment
- preparing communications equipment
- processing messages
- observing correct voice procedures
- maintaining security

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- basic communication procedures
- basic radio propagation
- classified material handling procedures
- communications ancillary equipment
- emission theory and control
- message formats
- OTAT/OTAR procedures
- radiation hazard (RADHAZ) procedures and awareness
- satellite communications systems terminology and basic operations

- security procedures
- task specific equipment configuration/operation
- techniques for supporting others
- work environment layout

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- acceptable means of simulation assessment
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and PPE currently used in industry.
