Assessment Requirements for DEFEXO001

Work safely with explosive ordnance

Release: 3

Assessment Requirements for DEFEXO001 Work safely with explosive ordnance

Modification History

Release 3. Assessment Conditions clarified in relation to Class 1 dangerous goods.

Release 2. Modifications made to Foundation Skills and Assessment Conditions.

Release 1. This unit was released in DEF Defence Training Package release 1.0 and meets the Standards for Training Packages.

This unit supersedes and is equivalent to DEFEO101D Work safely with explosive ordnance.

- Unit code updated
- Content and formatting updated to comply with the new standards
- All PC transitioned from passive to active voice
- Element 2 and 5 merged
- PC 1.2 and 3.2 removed

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- identifying markings and colour coding of explosives and associated packaging
- identifying UN classification system.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include:

- basic knowledge of
 - hazard and incident identification and reporting techniques
 - hazardous materials requirements
 - manual handling procedures
 - organisational safety policies
 - organisational safety information sources
 - personal protection measures
 - safety and advisory signs.

Assessment Conditions

Assessment needs to be conducted on at least Class 1 dangerous goods or with ‘inert training aids’ where Class 1 Dangerous Goods are not available.

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- acceptable means of simulation assessment
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and PPE currently used in industry.
