Assessment Requirements for DEFEXO081

Apply a knowledge of the service environment

Release: 2

DEFEXO081 Apply a knowledge of the service environment

Modification History

Release 2. Modifications made to Foundation Skills and Assessment Conditions.

Release 1. This unit was released in DEF Defence Training Package release 1.0 and meets the Standards for Training Packages.

This unit supersedes and is equivalent to DEFEO206C Apply a knowledge of the service environment.

- Unit code updated
- Content and formatting updated to comply with the new standards.
- All PC transitioned from passive to active voice
- PC 2.1, 2.2 and 2.3 merged
- Element 2 two new PC

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and includes:

- interpreting environmental effects relevant to explosive ordnance
- providing recommendations or advice
- researching environmental extremes in service operating environment from recognised industry resources
- writing of policy, reports, or instructions

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and includes:

- operational knowledge of:
 - awareness of recognised industry resources
 - environmental effects relevant to explosive ordnance
 - environmental extremes in service operating environment

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the

time of assessment.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- acceptable means of simulation assessment
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and PPE currently used in industry.
