DEFEXO145 Conduct dynamic small arms tests

Release: 2

DEFEXO145 Conduct dynamic small arms tests

Modification History

Release 2. Modifications made to Foundation Skills and Assessment Conditions.

Release 1. This unit was released in DEF Defence Training Package release 1.0 and meets the Standards for Training Packages.

This unit supersedes and is equivalent to DEFEO804A Conduct dynamic small arms proof tests.

- Unit code updated
- Content and formatting updated to comply with the new standards
- All PC transitioned from passive to active voice
- PC 1.7 removed
- Element 1 one new PC

Application

This unit describes the skills required to conduct dynamic small arms proof, trial and experimental tests in the explosive ordnance environment. Explosive ordnance dynamic small arms tests are conducted to ensure weapons systems or small arms ammunition in service meet the required standards. The dynamic small arms proof tests are a common component of explosive ordnance quality assurance.

This unit was developed for proof, trial and experimental testing specialists working within proof, trial and experimental organisations in Defence, but is applicable to any individual in this field of work.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently and as part of a team, under direct and/or indirect supervision. They would use discretion and judgement, and take responsibility for the quality of their output. They would perform routine tasks in range of contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

Explosive Ordnance

Unit Sector

Not applicable.

Elements and Performance Criteria

ELEMENTS

Elements describe the essential outcomes.

PERFORMANCE CRITERIA

Performance criteria describe the performance needed to demonstrate achievement of the element.

1 Prepare for dynamic small arms tests

- 1.1** Obtain and confirm test plan
- 1.2** Brief stakeholders and test participants in accordance with test plan
- 1.3** Check and initiate safety systems and procedures in accordance with test plan
- 1.4** Obtain and confirm information on resource requirements and availability
- 1.5** Prepare information support systems for dynamic small arms tests, including achievable reporting and recording processes, in accordance with resource requirements
- 1.6** Negotiate and resolve coordination issues with others affected by the tests
- 1.7** Construct required safety traces

2 Conduct tests

- 2.1** Identify and liaise with dynamic small arms test planners
- 2.2** Implement, monitor and amend test plan based on changing circumstances
- 2.3** Conduct tests in accordance with testing requirements
- 2.4** Allocate resources to testing tasks in accordance with the test plan and resource availability
- 2.5** Collect and record data generated by tests in accordance with agreed methodology

3 Report on test results

- 3.1** Report data generated by the test
- 3.2** Provide options and recommendations resulting from the

test in a clear and comprehensive format

3.3 Produce and maintain post-testing reports, statistical reports and other records

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Non-essential conditions may be found in the Companion Volume Implementation Guide.

Unit Mapping Information

This unit supersedes and is equivalent to DEFEO804A Conduct dynamic small arms proof tests.

Assessment Requirements for DEFEXO145 Conduct dynamic small arms tests

Modification History

Release 2. Modifications made to Foundation Skills and Assessment Conditions.

Release 1. This unit was released in DEF Defence Training Package release 1.0 and meets the Standards for Training Packages.

This unit supersedes and is equivalent to DEFEO804A Conduct dynamic small arms proof tests.

- Unit code updated
- Content and formatting updated to comply with the new standards
- All PC transitioned from passive to active voice
- PC 1.7 removed
- Element 1 one new PC

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and includes:

- assessing risks
- communicating and liaising effectively with stakeholders
- coordinating activities
- evaluating information
- writing reports

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and includes:

- operational knowledge of:
 - dynamic small arms proof, trial and experimental testing methodologies
 - evaluation processes
 - organisational WHS requirements
 - reporting procedures
 - risk assessment

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training

Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- acceptable means of simulation assessment
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and PPE currently used in industry.
