DEFFIN022 Perform administration of financial systems

Release: 1

DEFFIN022 Perform administration of financial systems

Modification History

Release 1. This is the first release of this unit of competency in the DEF Defence Training Package.

Application

This unit describes the skills required to support and maintain financial systems master data and support the implementation of design solutions.

This unit applies to those working in the public sector Finance Domain who would be required to undertake financial management activities related to financial systems as part of their duties.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to financial management activities.

Those undertaking this unit would be working independently and as part of a team while undertaking financial management tasks. They would perform complex tasks in familiar contexts.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

Financial Management

Unit Sector

Not applicable.

Elements and Performance Criteria

ELEMENTS

Elements describe the essential outcomes.

PERFORMANCE CRITERIA

Performance criteria describe the performance needed to demonstrate achievement of the element.

- | | |
|--|---|
| 1 Provide oversight of financial systems | 1.1 Review and analyse business information requirements |
| | 1.2 Implement design solutions |
| 2 Maintain master data | 2.1 Review, validate and analyse requests for amendment to master data |
| | 2.2 Seek approvals from stakeholders |
| | 2.3 Create and action request |
| | 2.4 Provide advice to business areas |
| 3 Support systems projects implementation | 3.1 Provide input into a project plan |
| | 3.2 Support the implementation of new requirements |
| | 3.3 Support business area to adopt new system/process |

Assessment Requirements for DEFFIN022 Perform administration of financial systems

Modification History

Release 1. This is the first release of this unit of competency in the DEF Defence Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- analysing requests for compliance with financial management policies
- managing stakeholder engagement
- providing technical advice
- understanding system capabilities against business requirements.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- how financial systems support reporting and auditing requirements
- key requirements of legislation and regulations relevant to managing financial systems, including data quality control and security requirements
- purpose of the key organisation's finance system/s
- structure and purpose of the organisation's Chart of Accounts.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations, current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations, current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or other simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- acceptable means of simulated assessment.
