Assessment Requirements for DEFGEN007

Conduct risk assessment in a Defence environment

Release: 2

Assessment Requirements for DEFGEN007 Conduct risk assessment in a Defence environment

Modification History

Release 2.0. This is the second release of this unit of competency in the DEF Defence Training Package Release 4.0. Modifications have been made to Foundation Skills and Assessment Conditions.

Release 1.0. These Assessment Requirements were released in DEF Defence Training Package release 1.0 and meet the Standards for Training Packages.

Assessment Requirements created drawing upon specified assessment information from superseded unit.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and includes:

- reading and complying with the organisation's plans, policies and procedures
- evaluating a situation by listening, observing and clarifying information with supervisor
- making notes of observations
- providing and receiving feedback in a constructive manner
- using problem solving skills for a defined range of problems
- presenting mathematical ideas in appropriate format
- defining and identifying risk language, definitions and terminology
- analysing risks using the methodology and procedures approved by the organisation.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- organisational policies, procedures and guidelines
- aims and objectives of the task
- risk management terminology and language in accordance with relevant standards
- techniques/methods used to identify or analyse information
- specified methods or tools endorsed by an organisation and provided for use in the identification and analysis of risk.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training

Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- acceptable means of simulation assessment
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and PPE currently used in industry.
