Assessment Requirements for DEFGEN008 Treat risk within Defence at an operational level

Release: 2

Assessment Requirements for DEFGEN008 Treat risk within Defence at an operational level

Modification History

Release 2. Modifications made to Assessment Conditions.

Release 1. This unit was released in DEF Defence Training Package release 1.0 and meets the Standards for Training Packages.

This unit supersedes and is equivalent to DEFRI001B Treat risk within Defence at an operational level.

- Unit code updated
- Content and formatting updated to comply with new standards
- All PC transitioned from passive to active voice
- Elements 2 and 3 merged
- Element 4 wording revised
- All PC in elements 2, 3 and 4 revised

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and includes:

- accessing and complying with relevant organisational plans, policies and procedures
- defining and identifying risk language, definitions and terminology
- evaluating a situation using the methodology and procedures approved by the organisation and clarifying information with supervisor
- following instructions and reporting information
- making notes of observations
- presenting mathematical ideas in appropriate format
- providing and receiving feedback in a constructive manner
- treating risk using the methodology and procedures approved by the organisation
- using problem solving skills for a defined range of problems

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- effective communication strategies including:
 - written
 - oral
- techniques for giving and receiving feedback in a constructive manner

- relevant organisational policies and procedures
- risk management terminology and language in accordance with relevant standards

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- acceptable means of simulation assessment
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and PPE currently used in industry.
