Assessment Requirements for DEFMIL064 Destroy hostile air targets using line of sight ground based air defence weapon systems

Release: 1

Assessment Requirements for DEFMIL064 Destroy hostile air targets using line of sight ground based air defence weapon systems

Modification History

Release	Comments
1	These Assessment Requirements were released in DEF Defence Training Package release 1.0 and meet the Standards for Training Packages. Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- demonstrating hand eye coordination and manual dexterity
- recognising aerial targets appropriately
- using binoculars
- identifying the number of aerial targets specified by CATC
- tracking and engaging targets using very short range air defence systems and short range air defence systems

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- aircraft types
- characteristics, technical capabilities of the system
- characteristics of a range of aerial targets likely to be encountered
- methods of range estimation
- WHS requirements
- safety precautions associated with the equipment

Assessment Conditions

Competency should be assessed in an actual workplace or in a simulated environment, with access to equipment and infrastructure appropriate to the outcome. Competency should be demonstrated over time to ensure the candidate is assessed across a variety of situations.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
