DEFMIL066 Observe targets and direct multi asset firepower on multiple targets

Release: 1

DEFMIL066 Observe targets and direct multi asset firepower on multiple targets

Modification History

Release	Comments
1	This unit was released in DEF Defence Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to DEFCA206B Observe targets and direct multi asset firepower on multiple targets. • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice • PC 3.2 removed

Application

This unit describes the skills required to observe targets remotely from the firepower locations and to provide advice so that firepower can be employed to engage targets. Firepower will normally be limited to the following assets:

- small arms
- indirect weapons

This unit applies to those working as combat arms personnel required to observe targets and to direct multi-asset firepower to destroy/neutralise multiple targets in a deployed operational environment.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work as part of a team under direct and/or indirect supervision. While this work will be undertaken as part of a team and under the commander's direction, the individual must also have the authority to act independently. They would use discretion and judgement, and take responsibility for the quality of their outputs while performing specific tasks in a broad range of unpredictable contexts.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Competency Field

Military Skills

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions section.
1. Occupy and prepare a location	1.1 Occupy an appropriate vantage point and maintain concealment throughout the operation. 1.2 Establish occupied position. 1.3 Establish reference points and document information. 1.4 Observe and monitor possible threats so that an appropriate plan of action can be prepared by relevant authority.
2. Plan the engagement of firepower	2.1 Interpret received advice on overall operational plan that will inform the planning process. 2.2 Transmit warning order for intent of operations to the command post. 2.3 Send request to the command post for resources outside own organisation when required. 2.4 Establish and record target data. 2.5 Calculate rate of movement of own personnel from available data. 2.6 Calculate resources for effective fire on targets and rates of fire. 2.7 Prioritise targets. 2.8 Develop and transmit schedule to the command post or liaise directly with other agency to organise engagement schedule.
3. Monitor fire on target	3.1 Maintain communications with stakeholders throughout the operation. 3.2 Complete target analysis after impact and if required refer to agency command centre. 3.3 Amend schedule after analysis as required, and transmit to the command post. 3.4 Provide advice to terminate as required. 3.5 Maintain records.
4. Withdraw from an occupied location	4.1 Recondition occupied position and remove all evidence of occupation. 4.2 Withdraw from the occupied position.

Foundation Skills

The foundation skills demands of this unit have been mapped for alignment with the Australian Core Skills Framework (ACSF). The following tables outline the performance levels indicated for successful attainment of the unit.

ACSF levels indicative of performance:

1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
Learning NA					Reading					Writing					Oral communication					Numeracy				

Performance variables:

1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
Support					Context					Text complexity					Task complexity				

Further information on ACSF and the foundation skills underpinning this unit can be found in the Foundation Skills Guide on the GSA website.

Unit Mapping Information

This unit supersedes and is equivalent to DEFCA206B Observe targets and direct multi asset firepower on multiple targets.

Assessment Requirements for DEFMIL066 Observe targets and direct multi asset firepower on multiple targets

Modification History

Release	Comments
1	These Assessment Requirements were released in DEF Defence Training Package release 1.0 and meet the Standards for Training Packages. • Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- allocating appropriate resources to the operation
- maintaining situational awareness
- providing reports and appropriate documentation
- maintaining awareness of safety of friendly personnel at all times
- recognising without exceeding own level of authority

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- characteristics, technical capabilities, effects, employment and limitations of weapons and weapon platforms
- communication procedures
- reporting requirements and procedures for multi-agency operations
- safety associated with the operations
- safety distances for various situations

Assessment Conditions

Competency should be assessed in an actual workplace or in a simulated environment, with access to equipment and infrastructure appropriate to the outcome. Competency should be demonstrated over time to ensure the candidate is assessed across a variety of situations.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
