Assessment Requirements for DEFMIL082

Perform military high-risk search

Release: 1

Assessment Requirements for DEFMIL082 Perform military high-risk search

Modification History

Release	Comments
1	These Assessment Requirements were released in DEF Defence Training Package release 1.0 and meet the Standards for Training Packages. Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- describing in detail the immediate area over the communications system
- applying knots, lashings and field machines
- neutralising and disarming booby traps and mines
- operating current high risk search equipment
- operating for protracted periods wearing ballistic individual protective equipment
- operating in a high stress environment
- operating search equipment
- operating secure communications
- using pulleys, blocks and tackle
- conducting searches including at least two of:
 - occupied building
 - unoccupied building
 - vehicle (aircraft, boat, truck, train etc.)
 - route (road)
 - area

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- basic blast effects
- building construction methods and materials
- combat engineering skill sets
- design data for generic buildings
- design data for generic vehicles
- explosive and non-explosive demolitions
- laws of armed conflict
- legal responsibilities
- mine and booby trap emplacement and breaching
- organisation's communication system
- relevant WHS regulations/requirements, equipment, material and personal safety requirements
- Rules of Engagement
- Rules of Evidence
- search equipment
- threat capability

Assessment Conditions

Competency should be demonstrated over a number of activities, exercises or incidents, including day and night searches. Competency should be assessed in an actual workplace or in a simulated environment, with access to equipment and infrastructure appropriate to the outcome. Competency should be demonstrated over time to ensure the candidate is assessed across a variety of situations.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
