Assessment Requirements for DEFMIL148 Assist with the establishment and operation of a field kitchen

Release: 1

Assessment Requirements for DEFMIL148 Assist with the establishment and operation of a field kitchen

Modification History

Release 1. This is the first release of this unit of competency in the DEF Defence Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying relevant food safety standards
- applying relevant legislation, and organisational policies and procedures
- conducting scheduled and unscheduled maintenance
- containing waste and byproducts (preventing spills)
- identifying hazards, assessing risks and implementing control measures
- operating at all stations in the field kitchen
- responding to fire or other minor emergency
- setting up in consideration of landscape and environment (on flat land – not near a river)
- working in a team.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- composition of teams, and roles and responsibilities of team members
- deployment procedures
- equipment maintenance techniques
- field kitchen equipment, layout and stations
- food safety procedures and standards
- maintenance procedures
- operation of electrical, gas and fuel catering equipment
- organisational work health and safety (WHS)/occupational health and safety (OHS) procedures
- personal hygiene principles
- relevant legislation, and organisational policies and procedures.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include

requirements in the Standards for Registered Training Organisations current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations current at the time of assessment.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Assessment must occur in workplace operational situations, where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or other simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry including:
 - field catering equipment
 - facilities
 - stores
- applicable documentation including operational procedures, regulations, codes of practice and operation manuals.
