Assessment Requirements for DEFPBC002 Establish the basis of a Performance Based Contract

Release: 2

Assessment Requirements for DEFPBC002 Establish the basis of a Performance Based Contract

Modification History

Release 2. This is the second release of this unit of competency in the DEF Defence Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- analysing the net cost/benefit ratio to determine the viability of a Performance Based Contract (PBC)
- defining the contract outcome and scope of work to define capability
- using PBC methodologies to define the PBC business case within the procurement strategy
- using stakeholder negotiation to meet contract requirements and outcomes.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- analytical and operational skills to comprehend complex contractual provisions
- contract strategy and construction components and key elements
- communication techniques to effectively communicate decisions
- Defence business units and operational procedures
- government procurement processes and options
- relevant legislation and organisational policy.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy

requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- acceptable means of simulation assessment
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and PPE currently used in industry.
