DEFPBC002 Establish the basis of a Performance Based Contract

Modification History

Release 2. This is the second release of this unit of competency in the DEF Defence Training Package.

Application

This unit describes the skills and knowledge required to establish the basis of a Performance Based Contract (PBC). It includes determining the requirements, establishing an integrated project team, and drafting a business case for the PBC. This unit applies to administrators or managers working within the contract management field in Defence but may be applicable to any individual in this field of work.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work within a team or as a supervisor under limited direction, while performing complex tasks in a range of contexts.

No licensing, legislative or certification requirements apply to this unit at the time of publication.
