Assessment Requirements for DEFRNG001 Provide technical advice on ranges and training areas

Release: 2

Assessment Requirements for DEF RNG001 Provide technical advice on ranges and training areas

Modification History

Release 2. Modifications made to Assessment Conditions.

Release 1. This unit was released in DEF Defence Training Package release 1.0 and meets the Standards for Training Packages.

This unit supersedes and is equivalent to DEF RM101B Provide technical advice on ranges and training areas.

- Unit code updated
- Content and formatting updated to comply with new standards
- All PC transitioned from passive to active voice
- Elements 2 and 3 reworded
- All PC in elements 2 and 3 revised

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and includes:

- analysing and evaluating information
- liaising with stakeholders
- preparing and presenting reports
- providing and receiving feedback in a constructive manner
- accessing relevant workplace standards
- identifying the issues surrounding the provision of advice
- conducting research

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- analysis process
- codes of conduct and behaviour
- relevant policies and procedures in relation to training area/range standing orders and workplace standards
- information sources
- research techniques
- verbal communication techniques
- written communication to a level required in the preparation of letters and reports

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- acceptable means of simulation assessment
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and PPE currently used in industry.
