Assessment Requirements for DEFRNG017 Develop and maintain training area and range standing orders

Release: 1

Assessment Requirements for DEFRNG017 Develop and maintain training area and range standing orders

Modification History

Release 1. These Assessment Requirements were released in DEF Defence Training Package release 3.0

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and includes:

- accessing and interpreting relevant legislation, regulations and policies
 - applying environmental constraints
 - applying safety traces relevant to a range
- applying service writing conventions
- interpreting and applying technical information, relevant legislation, regulations and Defence policy
- drafting Training Area/Range Standing Orders using the prescribed format
- identifying policies, legislation and regulations that are relevant to ranges

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- ammunition danger area templates
- relevant policies and procedures in relation to duty of care, ethical standards, training area/range standing orders and all other organisational requirements.
- composition of teams and roles and responsibility of team members
- conventions of service writing
- environmental aspects of range management
- range danger area safety traces
- permanent range practices
- field firing practices
- techniques for giving and receiving feedback in a constructive manner
- training objectives and activities
- weapons/systems characteristics

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training

Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- acceptable means of simulation assessment
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and PPE currently used in industry.
