Assessment Requirements for DEFRNG034 Monitor training area and range activities

Release: 1

Assessment Requirements for DEFRNG034 Monitor training area and range activities

Modification History

Release 1. This is the first release of this unit of competency in the DEF Defence Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and include:

- accessing, interpreting and applying relevant legislation and training area and range (TAR) guidance, including at least two of the following:
 - Defence policy
 - emergency plans
 - environmental plans
 - TAR operating plans
 - TAR Standing Orders
 - work health and safety (WHS) legislation
- applying instructions/directives and reporting information
- applying organisational policies and procedures
- applying technical specifications, maps and diagrams
- maintaining records according to organisational policies and procedures
- monitoring and supporting emergency plans
- monitoring compliance of TAR activities
- monitoring contractor activities.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include knowledge of:

- communication techniques
- emergency plans
- exercise instructions
- organisational policies and procedures
- post-activity reports
- range clearance certificates
- range instructions
- range practices

- standing operating instructions
- TAR operating plans
- TAR Standing Orders
- weapon systems characteristics.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- applicable documentation, including legislation, regulations, codes of practice, workplace procedures and operation manuals
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry.
