DEFRNG038 Provide technical advice on ranges and training areas

Release: 1

DEFRNG038 Provide technical advice on ranges and training areas

Modification History

Release 1. This is the first release of this unit of competency in the DEF Defence Training Package.

Application

This unit describes the skills and knowledge required to provide technical advice on ranges and training areas.

It includes the skills required to analyse issues, formulate options and provide advice.

This unit applies to Defence personnel who work in range management and range control but may be relevant to others who work in this field. Those undertaking this unit would work independently or as part of a team, under indirect supervision while performing complex tasks, in a small range of familiar contexts. They would use discretion and judgement and take responsibility for the quality of their outputs.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

Range Control.

Unit Sector

Not applicable.

Elements and Performance Criteria

ELEMENTS

PERFORMANCE CRITERIA

Elements describe the essential outcomes.

Performance criteria describe the performance needed to demonstrate achievement of the element.

1 Identify and analyse the

1.1 Identify and confirm issues via consultation with

issue(s)	relevant personnel
	1.2 Observe and analyse the circumstances that require the provision of advice and interpret the issues
	1.3 Conduct research related to the issues and clarify unclear findings with relevant personnel
2 Formulate options	2.1 Identify and evaluate options related to the provision of advice
	2.2 Prioritise options and select the preferred option
3 Provide advice	3.1 Formulate advice and discuss with stakeholders
	3.2 Negotiate, incorporate and document stakeholder requirements within the proposed advice
	3.3 Provide concluding advice within the specified time and budget

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Non-essential conditions may be found in the DEF Defence Training Package Companion Volume Implementation Guide.

Unit Mapping Information

This unit replaces and is equivalent to DEFRNG001 Provide technical advice on ranges and training areas.

Assessment Requirements for DEFRNG038 Provide technical advice on ranges and training areas

Modification History

Release 1. This is the first release of this unit of competency in the DEF Defence Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and include:

- accessing relevant workplace standards
- analysing and evaluating information
- applying organisational policies and procedures
- conducting research
- identifying the issues surrounding the provision of advice
- liaising with stakeholders
- maintaining records according to organisational policies and procedures
- preparing and presenting reports
- providing and receiving feedback in a constructive manner.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include knowledge of:

- analysis process
- codes of conduct and behaviour
- information sources
- organisational policies and procedures
- relevant policies and procedures in relation to training area/range standing orders and workplace standards
- research techniques
- verbal communication techniques
- written communication to a level required in the preparation of letters and reports.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory

requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- applicable documentation, including legislation, regulations, codes of practice, workplace procedures and operation manuals
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry.
