Assessment Requirements for DEFRNG039 Site range complexes

Release: 1

Assessment Requirements for DEFRNG039 Site range complexes

Modification History

Release 1. This is the first release of this unit of competency in the DEF Defence Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria on at least one occasion and include:

- applying environmental issues relevant to ranges
- applying organisational policies and procedures
- completing board and range inspector's report according to organisational policy and procedures
- exercising judgement in relation to range safety
- interpreting and applying range safety requirements
- interpreting range specifications and construction requirements
- interpreting range user requirements
- interpreting weapon and ammunition specifications and effects
- maintaining records according to organisational policies and procedures
- using liaison techniques.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all the requirements of the elements and performance criteria and include knowledge of:

- application of ammunition danger area traces and templates
- composition of teams, and roles and responsibilities of team members
- environmental issues relevant to ranges
- geographical information systems
- map reading and navigation techniques
- organisational policies and procedures
- planning processes
- range safety requirements
- range specifications and construction
- reporting requirements
- teamwork and collaboration processes
- techniques for supporting others/team members
- weapon and ammunition specifications and effects
- working of range sitting board

- works proposal processes.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- applicable documentation, including legislation, regulations, codes of practice, workplace procedures and operation manuals
- relevant and appropriate materials, tools, equipment and personal protective equipment (PPE) currently used in industry.
