DEFSS00052 Cyber Risk Response

DEFSS00052 Cyber Risk Response

Modification History

Release	Comments
1	This skill set was first released in DEF Defence Training Package Release 7.1.

Description

This Skill Set prepares individuals to lead the development of cyber risk response activities by coordinating team efforts and managing decisions within established policy boundaries.

Individuals with this Skill Set apply advanced analysis to guide cyber security response planning, evaluate organisational compliance, and develop effective risk and insider-threat response plans.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this skill set at the time of publication.

Pathways Information

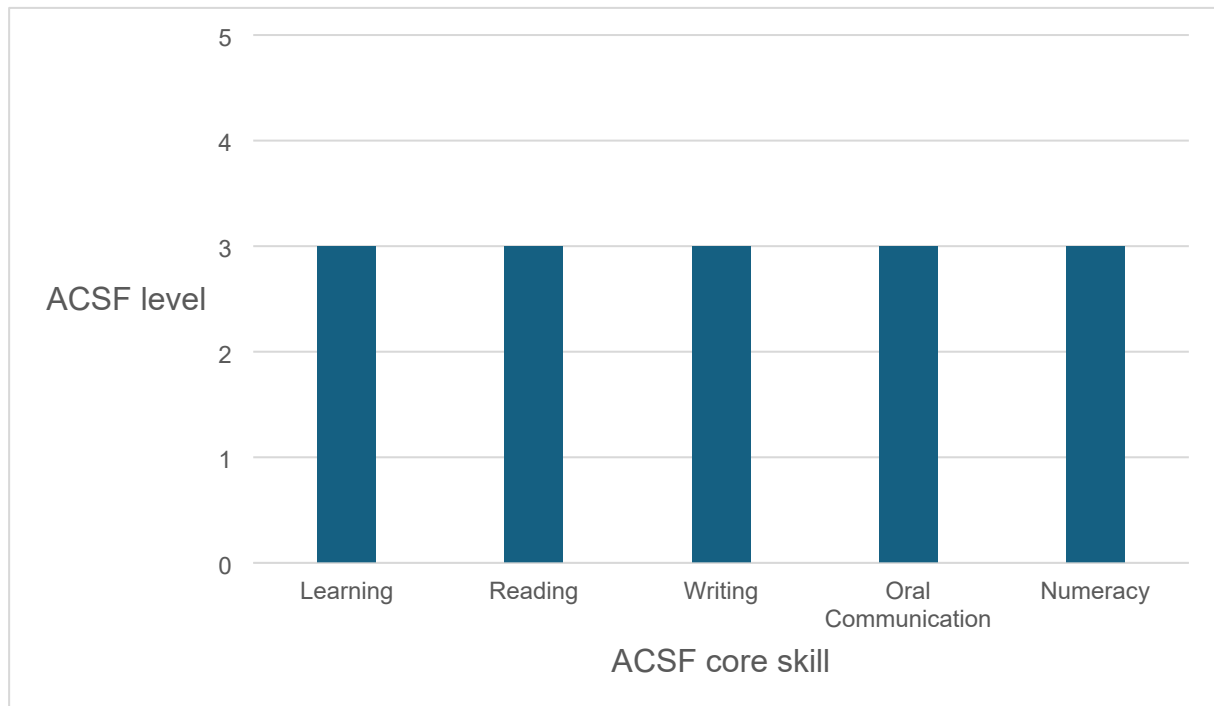

This Skill Set is part of the DEF Defence Training Package. The Skill Set can be a standalone outcome, or the units may contribute to the achievement of relevant qualifications.

Entry Requirements

There are no entry requirements for this skill set.
