DEFTRP005 Operate a multi-axle trailer

Modification History

Release	Comments
1	This unit was released in DEF Defence Training Package release 1.0 and meets the Standards for Training Packages. This unit supersedes and is equivalent to DEFTP005B Operate a multi-axle trailer. • Unit code updated • Content and formatting updated to comply with the new standards • All PC transitioned from passive to active voice • Element 1 reworded

Application

This unit describes the skills required to configure, load, tow, manoeuvre and unload a multi-axle trailer coupled to a wheeled vehicle authorised to tow this type of trailer. Multi-axle trailers in this context are used to transport wheeled and tracked vehicles, containers and items of general cargo in a range of operating environments.

This unit was developed for military drivers in a threat environment, but is applicable to any individuals who work in this field.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently or as part of a team, under direct and indirect supervision, use discretion and judgement, and take responsibility for the quality of their output. They would perform routine tasks in a broad range of unpredictable contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.
