Employability Skills Summary

Employability Skills are part of a unit of competency.

Employability Skills statements from a selection of units of competency from the DEF32812 Certificate III in Preventive Health have been reproduced in the table below.

This table provides an example of Employability Skills for the qualification because Employability Skills within a qualification will vary depending on the qualification packaging options.

Defence qualifications have core units (which must be achieved) and elective units (where there is a choice of units which must be achieved) so different Employability Skills Summaries are possible within the one qualification, depending on the package of core units and chosen elective units.

Employability Skill	Employability Skills Statement
Communication	<ul style="list-style-type: none"> communicate technical information relating to environmental health to non health personnel to gain their support of environmental health activities compile and submit reports and returns to relevant persons, to assist with health surveillance at the organisational level formulate and discuss environmental health advice with stakeholders to fully develop environmental health measures and to ensure coordination with other local activities gather and communicate information in support of environmental health planning to team leader regularly update and communicate information on workplace OHS legislation, codes, standards, policies and procedures relevant to self and other employees
Teamwork	<ul style="list-style-type: none"> assist line managers with physical health inspections attend and participate in planning briefs and activities to contribute to the team planning task implement team leadership management principles monitor personnel health to identify the spread of illness to enable early intervention of disease transmission and to limit the impact on the organisation operate as a member of a small planning team and be responsive to the team leader
Problem solving	<ul style="list-style-type: none"> implement environmental injury control measures to reduce the risk of injury and to equip commanders with the information to make informed decisions regarding physical activity levels, water consumption and acclimatisation implement risk management principles manage workplace issues and problems respond to outbreak of disease, to limit the spread of disease and to protect the health of the organisation review and clarify health support assessment to ensure advice is based on full consideration of health threats identified in local operating

	<p>area</p> <ul style="list-style-type: none"> • solve routine problems
Initiative and enterprise	<ul style="list-style-type: none"> • conduct research related to environmental health advice to ensure advice is technically correct and is based on organisational policies and procedures • determine best use of available resources • identify sources of stress and access appropriate supports and resolution strategies • implement time management strategies to set priorities
Planning and organising	<ul style="list-style-type: none"> • coordinate a range of environmental health measures in a practical field setting • identify environmental health measures through consideration of health threats and review of resources available to apply in the provision of environmental health measures • organise work priorities and arrangements • prioritise tasking
Self-management	<ul style="list-style-type: none"> • access, complete and record professional development opportunities to facilitate continuous learning and career development • accurately monitor and adjust personal work performance through self-assessment to ensure achievement of tasks • coordinate personal skill development and learning • identify personal learning needs and skill gaps using self-assessment and advice from colleagues and clients in relation to role and organisational requirements • identify signs of stress and effects on personal wellbeing • organise and complete own work schedules • recognise limits of own expertise and legal responsibilities, and access appropriate sources of expertise as required
Learning	<ul style="list-style-type: none"> • learn about duty of care arrangements • learn about food storage and distribution standards including the Hazard Analysis and Critical Control Point (HACCP) approach to food control • learn about legal framework of OHS in the workplace • learn about pathophysiology of common communicable diseases • learn about principles and techniques of goal setting, measuring performance, time management and personal assessment
Technology	<ul style="list-style-type: none"> • establish and maintain administrative systems • use business technology efficiently and effectively to manage and monitor scheduling and completion of tasks • use technology, as required, to implement environmental injury control measures to reduce the risk of injury and to equip commanders with the information to make informed decisions regarding physical activity levels, water consumption and acclimatisation

	<ul style="list-style-type: none">• use technology, as required, to monitor quality of field water supply via application of water quality measures to ensure availability of water supply to support the local area organisation• use technology, as required, to monitor quality of food supply via application of food quality measures to ensure availability of food supply to support local area organisation
--	--

Packaging Rules

18 units of competency are required for this qualification including:

- 3 core units
- 15 elective units

Choose a minimum of 9 elective units from the Group A (Specialisation) list below.

Choose a minimum of 3 elective units from the Group B (Work health and safety) list below.

Choose a minimum of 1 elective units from the Group C (General) list below.

Choose the remaining 2 elective units from either the elective lists below, **or** elsewhere within this training package, **or** another endorsed training package, **or** accredited course.

Where a pre-requisite unit is attached to an elective unit it is identified by this symbol ⊥.

The pre-requisite units attached to any of the elective units must be undertaken and are additional to the number of elective units required for the qualification.

The elective units should be selected from the units that most closely align to an individual's occupational outcomes. Electives selected must not duplicate outcomes of other units.

Elective units selected must not duplicate content already covered by other units in this qualification.

Code	Core Units
DEFPH001A	Contribute to environmental health operations
BSBOHS301B	Apply knowledge of OHS legislation in the workplace
BSBWOR301B	Organise personal work priorities and development
Code	Group A Elective Units (Specialisation)
HLTDEFHC406B	Participate in deployed health capability
HLTPOP321B	Assist with monitoring food storage and handling procedures in the community
NWP210B	Perform basic water quality tests
NWP218B	Perform and record sampling
PRMPM02B	Assess pest management options
PRMPM05B	Modify environment to manage pests

PRMPM06B	Apply pesticide to manage pests
PRMPM07B	Implement a pest management plan
PRMPM09B	Advise client on pest management options
PRMPM11B	Conduct fumigation
DEFPH002A	Assist with quick assessment of disease outbreak
DEFPH003A	Operate environmental measuring devices
DEFPH004A	Undertake a vector borne diseases surveillance program
DEFPH005A	Assist with field hygiene and sanitation
DEFPH006A	Monitor water handling and distribution practices
DEFPH007A	Conduct chlorine dosing of water at the point of supply
Code	Group B Elective Units (Work Health and Safety)
BSBOHS302B	Participate effectively in OHS communication and consultative processes
BSBOHS303B	Contribute to OHS hazard identification and risk assessment
BSBOHS304B	Contribute to OHS hazard control
BSBOHS305B	Contribute to OHS issue resolution
BSBOHS306B	Contribute to implementing emergency prevention activities and response procedures
BSBOHS307B	Participate in OHS investigations
Code	Group C Elective Units (General)
BSBFLM303C	Contribute to effective workplace relationships
BSBFLM312B	Contribute to team effectiveness
BSBINM301A	Organise workplace information
BSBSUS201A	Participate in environmentally sustainable work practices
BSBWOR301B	Organise personal work priorities and development
BSBWRT301A	Write simple documents

CPCCVE1011A	Undertake a basic construction project
FDFOPTISP2A	Implement sampling procedures
HLTFA311A	Apply first aid
MEM18001C	Use hand tools
MEM18002B	Use power tools/hand held operations
PUACOM002B	Provide services to clients
PUAOPE004B	Conduct briefings/debriefings
