Release: 1

FBPBPG2001 Operate the bottle supply process

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to set up, operate and shut down a range of semi-automated bottling equipment.

The unit applies to individuals who work under general supervision in bottling and packaging and are responsible for operating and monitoring a bottle supply process and associated equipment.

All work must be carried out to comply with workplace procedures, according to state/territory health and safety, and food safety regulations, legislation and standards that apply to the workplace.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Bottling and Packaging (BPG)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare to operate bottle supply equipment	1.1 Confirm work instructions and identify potential health and safety in the workplace hazards and controls with supervisor 1.2 Select, fit and use appropriate personal protective equipment 1.3 Ensure that product and materials are available to meet bottle

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	supply requirements 1.4 Prepare product and materials to meet bottle supply requirements 1.5 Ensure that services are available and ready for operation 1.6 Prepare bottle supply equipment and check to confirm readiness for use 1.7 Setup equipment to meet bottle supply requirements
2. Operate and monitor the bottle supply process	2.1 Start-up bottle supply equipment according to operating instructions 2.2 Monitor control points to confirm performance is maintained within equipment operation specifications 2.3 Ensure bottles are supplied according to requirements 2.4 Monitor bottle supply equipment to confirm operating conditions 2.5 Identify, rectify and report out-of-specification end product, process and equipment performance according to workplace procedures 2.6 Liaise with operators in other work areas to ensure ongoing bottling process runs efficiently and effectively
3. Shut down the bottle supply process	3.1 Shut down bottle supply equipment according to operating instructions 3.2 Prepare bottle supply equipment for cleaning according to workplace procedures
4. Conduct housekeeping activities	4.1 Carry out cleaning and maintenance procedures 4.2 Collect, treat and dispose of or recycle waste generated by both the process and cleaning procedures 4.3 Record workplace information according to workplace procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
-------	-------------

Skill	Description
Reading	Interpret key messages in standard operating procedures
Navigate the world of work	- Follow clear instructions within defined level of responsibility - Recognise organisational expectations and follows explicit protocols and procedures - Seek clarification when required
Get the work done	Respond to routine problems using step by step instruction and procedures
