Assessment Requirements for FBPCEL2009

Carry out transfer operations

Release: 2

Assessment Requirements for FBPCEL2009 Carry out transfer operations

Modification History

Release	Comments
Release 2	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 3.0.
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has operated at least one transfer process, including:

- accessing workplace information to identify transfer requirements
- selecting, fitting and using personal protective equipment
- checking supply and status of materials before commencing transfer operation
- preparing and confirming status of equipment and services before commencing transfer process
- setting up and starting the transfer process
- monitoring the transfer process
- taking corrective action in response to non-conformance results
- shutting down the process after transfer operations are completed
- conducting work according to environmental and health and safety requirements.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- purpose of the transfer process and the links between transfer operations and other processes
- basic operating principles of transfer equipment
- equipment used in the transfer process, including:
 - pumps
 - hoses

- valves
- fixed lines
- fittings
- control instruments
- methods used to monitor the transfer process
- common causes of non-conformance results for product, process and equipment, and corrective action required, including:
 - issues that can be rectified
 - issues that must be reported
- responsibilities for health and safety in the workplace, including:
 - health and safety hazards associated with transfer operations
 - methods for controlling risks associated with health and safety hazards, including confined space entry
- responsibilities for identifying and controlling environmental issues
- responsibilities for ensuring cleanliness of equipment
- workplace procedures and responsibility for:
 - reporting problems
 - shutting down the process
 - cleaning
 - handling waste
 - recording required information.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a wine or beverage production workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - personal protective equipment for transfer operations
 - equipment and materials for transfer operations
 - system for recording and reporting information
- specifications:
 - workplace procedures for transfer operations.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
