Assessment Requirements for FBPCEL3005

Operate the pressing process

Release: 1

Assessment Requirements for FBPCEL3005 Operate the pressing process

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has operated at least one pressing process, including:

- accessing workplace information to identify pressing requirements
- selecting and fitting appropriate personal protective equipment (PPE)
- checking supply and status of materials before commencing pressing operation
- preparing and confirming status of equipment and services before commencing pressing process
- setting up and starting the pressing process
- monitoring the pressing process
- taking corrective action in response to non-conformance results
- shutting down the process after pressing operations are completed
- conducting work according to environmental and health and safety requirements in the workplace.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- purpose of the pressing process and the links between pressing and other processes used in wine operations
- basic operating principles of pressing equipment
- materials used in the pressing process including:
 - grape varieties, whole fruit bunches and common additives
 - preparation requirements and effect of variation on the pressing process
- main pressing techniques and how these techniques that can affect the characteristics of the wine:

- degree of pressing and pressure
- blending and separating free run juice from first and later pressings
- press type
- methods used to monitor the process
- common causes of non-conformance results for product, process and equipment and corrective action required including:
 - issues that can be rectified
 - issues that must be reported
- responsibilities for health and safety in the workplace including:
 - health and safety hazards associated with the pressing process
 - methods for controlling risks associated with health and safety hazards, including confined space entry
- responsibilities for identifying and controlling environmental issues
- workplace procedures and responsibility for:
 - reporting problems
 - shutting down the process
 - cleaning
 - handling waste
 - recording required information.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a wine operations workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - PPE for pressing operations
 - equipment and materials for pressing process
 - system for recording and reporting information
- specifications:
 - workplace procedures for pressing operations.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
