Assessment Requirements for FBPFST4003 Apply digital technology in food processing

Release: 1

Assessment Requirements for FBPFSST4003 Apply digital technology in food processing

Modification History

Release	Comments
Release 1	This version released with the FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency in this unit must satisfy all of the elements and performance criteria of this unit.

There must be evidence that the individual has effectively used digital technology on two separate occasions, including on each occasion:

- collecting and recording accurate data about food processing
- analysing data and producing a report to suit requirement of workplace
- storing data and reports appropriately.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- compatibility of an operating system in respect to data logging equipment and databases
- food processing operation data requirements and uses
- data analysis processes
- interoperability between operating systems and between operating systems and food processing equipment
- software applicable to the operating system
- basic problem-solving in application management and help function usage
- diagnostic software and hardware
- configuration procedures
- back-up procedures
- organisational security procedures
- hardware maintenance procedures
- health and safety in the workplace hazards and controls relating to work processes.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a workplace setting or an environment that accurately represents a real workplace
- resources, equipment and materials:
 - data logging and other computerised equipment used in the food processing area
- specifications:
 - standard operating procedures for digital equipment
 - relevant equipment manuals, including operating parameters.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
