FBPFSY4005 Conduct a traceability exercise

Release: 1

FBPFSY4005 Conduct a traceability exercise

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 6.0.

Application

This unit of competency describes the skills and knowledge required to supervise a team to conduct a traceability exercise, or mock recovery, to track any food through all stages of ingredient receipt, production, processing and distribution. This allows for the withdrawal or recall of products that have been identified as unsafe or unsuitable. Running a traceability exercise is a check of the tracking system.

The unit applies to individuals who work in supervisory or compliance roles in food and/or beverage processing.

All work must be carried out to comply with workplace procedures, in accordance with state/territory health and safety and food safety regulations, legislation and standards that apply to the workplace.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Food Safety (FSY)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare for traceability exercise	1.1 Identify regulatory requirements for tracking processed food or beverages 1.2 Identify the product to be tracked or recalled

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	1.3 Identify the label, specification and/or unique identifier for the product 1.4 Identify system used to document traceability of products 1.5 Brief team members on purpose of exercise and requirements for each individual
2. Oversee tracking of product	2.1 Track product through ingredient receipt, storage, distribution and packaging records 2.2 Track processing of product through batch records and processing records, including any rework or overrun ingredients used 2.3 Track product ingredients through raw material and ingredient storage records, records of receipt of raw materials and ingredients, and ingredient specifications 2.4 Gather team and collate information provided by team members 2.5 Present overview of product traceability exercise records to team and manager
3. Identify improvements to tracking	3.1 Identify any mislabelling or processing details that are not represented on the product label or specification 3.2 Make recommendations to rectify product traceability details to ensure accuracy and efficient recall

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Learning	Track and problem-solve issues that arise with traceability
Reading	Interpret traceability records and ingredient specifications
Writing	Document traceability details of product
Oral communication	- Instruct team members about individual role requirements - Effectively coordinate team activities

Skill	Description
	Present information to superiors using appropriate method and tone
