Assessment Requirements for FBPOPR1011 Operate automated washing equipment

Release: 1

Assessment Requirements for FBPOPR1011 Operate automated washing equipment

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 6.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has operated automated washing equipment to clean at least two loads of items to be cleaned to specification, including:

- applying food safety procedures to work practices
- following safe work procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- purpose, functions and basic operation of equipment
- operating cycles and application to washing requirements
- required output and quality of cleaning/sanitising to be met by the washing process
- operating requirements and parameters, and corrective action required where operation is outside specified operating parameters
- typical equipment faults and related causes, including signs and symptoms of faulty equipment, and early warning signs of potential problems
- common causes of faults or unacceptable performance of the container washing process, and related troubleshooting procedures within level of responsibility
- health and safety hazards and controls
- common food safety risks in the work area and how they can be controlled
- shutdown and cleaning procedures, including isolation, lock-out and tag-out procedures and responsibilities
- procedures and responsibility for reporting problems
- environmental issues and controls relevant to equipment operation, including waste collection and handling procedures related to the container washing process
- basic operating principles of process control, including the relationship between control panels and systems and the physical equipment

- recording procedures and responsibilities
- cleaning and sanitisation requirements.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - automated washing equipment, services and accessories
 - items to be washed
 - personal protective equipment
 - cleaning procedures, materials and equipment
- specifications:
 - work procedures, including advice on safe work practices
 - washing schedules and specifications
- relationships:
 - supervisor.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
