Release: 1

FBPOPR1011 Operate automated washing equipment

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 6.0.

Application

This unit of competency describes the skills and knowledge required to prepare, load and operate automated washing equipment.

This unit applies to individuals who work under direct supervision.

All work must be carried out to comply with workplace procedures according to state/territory health and safety and food safety regulations, legislation and standards that apply to the workplace.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Operational (OPR)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare washing equipment for operation	1.1 Read or listen to work instructions from supervisor and ask for clarification where necessary 1.2 Identify health and safety hazards and food safety hazards, and inform supervisor 1.3 Use appropriate personal protective equipment according to workplace procedures

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	1.4 Identify and load items to be washed according to job specifications 1.5 Confirm equipment and services are ready for use 1.6 Select wash cycle settings to meet safety and wash requirements
2. Operate and monitor the equipment	2.1 Conduct pre-start checks according to workplace procedures 2.2 Measure and load cleaning agent into dispenser 2.3 Operate equipment and monitor to identify variation in operating conditions 2.4 Report any variation in equipment operation to supervisor 2.5 Shut equipment down safely according to workplace procedures 2.6 Unload washed items, and position in required location 2.7 Keep work area clean and tidy according to health, safety, environmental and food safety procedures 2.8 Clean equipment and complete records, as required by workplace procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Learning	Recognise and seek guidance to correct simple problems
Reading	- Follow simple work instructions, including detergent dosages - Follow control panel prompts
Writing	Keep track of work activities using workplace format
Oral communication	Ask simple questions and listen carefully to clarify understanding or seek further information
Numeracy	Measure correct amounts of cleaning agents

Assessment Requirements for FBPOPR1011 Operate automated washing equipment

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 6.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has operated automated washing equipment to clean at least two loads of items to be cleaned to specification, including:

- applying food safety procedures to work practices
- following safe work procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- purpose, functions and basic operation of equipment
- operating cycles and application to washing requirements
- required output and quality of cleaning/sanitising to be met by the washing process
- operating requirements and parameters, and corrective action required where operation is outside specified operating parameters
- typical equipment faults and related causes, including signs and symptoms of faulty equipment, and early warning signs of potential problems
- common causes of faults or unacceptable performance of the container washing process, and related troubleshooting procedures within level of responsibility
- health and safety hazards and controls
- common food safety risks in the work area and how they can be controlled
- shutdown and cleaning procedures, including isolation, lock-out and tag-out procedures and responsibilities
- procedures and responsibility for reporting problems
- environmental issues and controls relevant to equipment operation, including waste collection and handling procedures related to the container washing process
- basic operating principles of process control, including the relationship between control panels and systems and the physical equipment

- recording procedures and responsibilities
- cleaning and sanitisation requirements.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - automated washing equipment, services and accessories
 - items to be washed
 - personal protective equipment
 - cleaning procedures, materials and equipment
- specifications:
 - work procedures, including advice on safe work practices
 - washing schedules and specifications
- relationships:
 - supervisor.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
