Application

This unit of competency describes the skills and knowledge required to set up, operate, adjust and shut down a rye crisp breads manufacturing process.

This unit applies to individuals who work in a baking production environment under general supervision with some accountability for their own work. This includes identifying and providing solutions to a limited range of predictable problems relating to the operation and monitoring of machines and equipment used in a crisp bread manufacturing process.

All work must be carried out to comply with workplace procedures, in accordance with State/Territory work health and safety, and food safety regulations, legislation and standards that apply to the workplace.

No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.
