Assessment Requirements for FBPPPL3002 Establish compliance requirements for work area

Release: 1

Assessment Requirements for FBPPPL3002 Establish compliance requirements for work area

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 1.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has established compliance requirements for work areas on at least one occasion, including:

- investigating and identifying compliance requirements and procedures for own work area
- assessing workplace procedures against compliance requirements to determine gaps
- sourcing information and training to assist in establishing an effective compliance framework in work area
- determining the work procedures required to follow, observe and respond to compliance issues.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- operating procedures, specifications and other workplace information
- information required for compliance for own work area
- communication skills to obtain and share information
- requirements for establishing and monitoring procedures
- documenting compliance outcomes
- effect of work procedures on compliance factors in the work area
- purpose and intent of compliance in the workplace
- compliance policies and requirements relevant to own work area, including:
 - work health and safety
 - food safety
 - feed safety
 - environmental management
- data assessment methods relevant to monitoring compliance of own work area

- internal and external support personnel as sources for compliance requirements
- procedures to follow for non-compliance events
- consequences of non-compliance in the workplace.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - information systems and data collection technology
 - workplace/personnel access to collect data and observe compliance
- specifications:
 - workplace program documentation
 - compliance procedures and standards as applied in the workplace
 - relevant legislation, industry standards and codes of practice.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
