Assessment Requirements for FBPSUG1004

Check a cane sample for extraneous matter

Release: 1

Assessment Requirements for FBPSUG1004 Check a cane sample for extraneous matter

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has checked a cane sample for extraneous matter in line with workplace contexts and demonstrated each of the following points at least once:

- selected, fitted and used personal protective equipment (PPE)
- identified and reported health and safety hazards in the workplace
- identified and reported maintenance requirements
- collected and sorted cane samples
- conducted visual and physical inspection of cane and identified extraneous matter
- used weighing equipment and confirmed calibration
- recorded inspection results according to workplace requirements.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- conditions and practices that affect the level of extraneous matter found in cane
- method and purpose of taring or zeroing weighing equipment and confirming calibration using check weights
- nature of extraneous matter typically found in cane
- purpose of extraneous matter test
- methods used to sort and calculate extraneous matter in a sample
- the effect of high levels of extraneous matter on downstream operations
- key health and safety requirements relating to checking cane samples in the workplace
- correct use of PPE when handling cane
- procedures for reporting faulty weighing equipment.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - PPE
 - weighing equipment
 - workplace information recording system
- specifications:
 - workplace procedures for safe work practices
 - extraneous matter/quality specifications
 - operating procedures and related advice on equipment operation.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
