Assessment Requirements for FBPTEC3002 Implement the pest prevention program

Release: 1

Assessment Requirements for FBPTEC3002 Implement the pest prevention program

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has implemented a pest prevention program to effectively control pests in two different areas, including:

- conducting pest inspections
- identifying pest infestations and selecting suitable control measures
- implementing pest control measures in accordance with workplace procedures
- monitoring effectiveness of control measures
- assessing pest control methods and contributing to improvement of pest control
- completing records according to workplace procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- basic principles of integrated pest management including:
 - identification of pest hazards
 - establishment of pest elimination methods
 - monitoring of the effectiveness of these measures
- methods used to prevent pest invasion in the workplace
- housekeeping and cleaning standards to minimise conditions that attract pests
- food safety issues relating to the use of pesticides in a food handling area
- characteristics and behaviours of common pests in own workplace
- conditions required by common pests to survive and breed
- methods and procedures used to minimise pest resistance to elimination methods
- safety data sheets (SDS) for pesticides used in the workplace
- legislation, codes of practice and procedures relating to the purchase, transport, storage, use and disposal of pesticides

- safe procedures for handling, using and storing pesticides
- the purpose, application and limitations of personal protective equipment (PPE).

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a workplace setting or an environment that accurately represents a real workplace
- resources, equipment and materials:
 - access to work areas where pests are common
 - pesticide labels and SDS
 - PPE
 - pest control equipment
- specifications:
 - pest prevention program.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
