Assessment Requirements for FBPWHS3001 Contribute to work health and safety processes

Release: 2

Assessment Requirements for FBPWHS3001 Contribute to work health and safety processes

Modification History

Release	Comments
Release 2	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 6.0.
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has contributed effectively to work health and safety processes on at least two separate occasions, including:

- identifying and assessing potential hazards in the workplace
- monitoring implementation of safe work practices in the workplace
- providing advice and feedback to work group members
- contributing to the implementation of risk control measures
- completing health and safety records and reports according to the standards accepted in the workplace.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- Commonwealth, state or territory legislation, regulations, standards, codes of practice and industry standards/guidance notes relevant to own work, role and responsibilities
- safety signs and their meanings, including signs for:
 - personal protective equipment (PPE)
 - emergency equipment
 - dangerous goods class signs
 - specific hazards such as sharps, radiation
 - the difference between hazard and risk
- sources of health and safety information (internal and external)

- nature of common workplace hazards, including chemicals, bodily fluids, noise, manual handling, work postures, underfoot hazards and moving parts of machinery
- basic hazard identification procedures, including workplace inspections and review of workplace data
- standard emergency signals, alarms and required responses
- principles of basic risk assessment
- hierarchy of control and its application
- PPE requirements, including use, storage and maintenance
- roles and responsibilities of employees, supervisors and managers in the workplace
- roles and responsibilities of health and safety representatives and committees
- potential consequences of non-compliance and failing to follow safe work practices
- workplace specific information, including:
 - hazards of the particular work environment
 - hazard identification procedures relevant to the hazards in their workplace
 - designated person with whom to raise health and safety issues
- potential emergency situations, alarms and signals and required response.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - scenarios or case studies for simulated emergency responses
 - personal protective equipment
- specifications:
 - health and safety legislation, regulations and codes of practice, and policies and procedures
- relationships:
 - team members.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
