Qualification Description

This qualification is for financial planners who provide a range of standard financial planning services and individuals providing specialist para-planning services. Individuals in these roles require well-developed skills and a broad knowledge base of the financial planning sector and the ASIC regulatory framework. Individuals in these roles have autonomy in performing technical operations, apply solutions to a range of often complex problems, and analyse and evaluate information from a variety of sources. They apply initiative to plan, coordinate and evaluate their own work and provide guidance to others.

Licensing/Regulatory Information

Work functions in the occupational areas where this qualification may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.
