FNSACC304 Conduct business activities using a computerised accounting system

Release: 1

FNSACC304 Conduct business activities using a computerised accounting system

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 3.0.

Application

This unit describes the skills and knowledge required to conduct business activities using a computerised accounting system. This work is conducted under supervision and encompasses entering information into the system, processing transactions in the system, and producing reports.

It applies to individuals who use specialised knowledge, information technology, and coordination skills when operating computerised accounting systems in the course of their business activities in service and trading environments.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Accounting

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Obtain and enter data into computerised accounting system	1.1 Obtain input data from organisational or client source 1.2 Confirm purpose of information and verify information is in correct format for entry into system 1.3 Enter information into system and confirm its accuracy according to organisational procedures 1.4 Seek technical help to solve operational problems
2. Process transactions	2.1 Use information in system to process cash and credit

ELEMENT	PERFORMANCE CRITERIA
in computerised accounting system	transactions 2.2 Review system output to verify accuracy of data input according to organisational procedures 2.3 Seek help where required to correct detected processing errors
