Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- comply with operational aspects of industry codes, laws, regulations, rules and circulars while undertaking duties in the relevant financial services sector
- comply with the agency/broker agreement and professional indemnity obligations in the performance of a range of tasks
- maintain statutory records for a range of financial products and services.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- analyse and explain changes and implications of key requirements of law, regulations, rules and circulars relevant to the sector or the work performed
- analyse compliance requirements of legislation, regulation and codes of practice relevant to the financial services industry sector
- describe internal compliance monitoring or audit programs
- define and explain duty of care principles
- outline the general obligations of a financial services adviser, and ethical requirements
- outline legislative and industry codes of practice to be complied with when:
 - marketing or selling the organisation's products and services
 - handling client complaints
- analyse relevant agency agreements and/or broker authority
- identify relevant associations in the financial services industry that can provide advice on codes of practice.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the compliance field of work and include access to:

- common office equipment, technology, consumables and industry software packages
- financial services legislation, and industry and professional codes of practice
- organisational policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.
