Release: 1

FNSISV509 Analyse financial, medical and psychological claims assessments

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to arrange financial, medical or psychological assessments to support the claims assessment process and to analyse and report on the results.

It applies to individuals working in job roles involving specialist knowledge and functions in a range of insurance sectors and may be applied to areas of claims assessment involving personal injury, long-term settlement and/or complex claims.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.

Unit Sector

Insurance services

Assessment Requirements for FNSISV509 Analyse financial, medical and psychological claims assessments

Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- interpret and identify circumstances in which specialist assistance should be sought for the resolution of a claim
- correctly analyse claims information to determine the need for specialist assistance
- engage specialist assistance as appropriate
- monitor the specialist assessment activity
- interpret and report on the outcomes of the advice in relation to the claim.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe methods, practices and guidelines for performing data analysis
- describe 'claims management' as it applies to specialist circumstances
- identify policy coverage and requirements
- outline the principles of cost estimating in claims assessments
- identify and explain key features of relevant legislation, regulatory guidelines and industry sector codes of practice
- explain the roles and responsibilities of financial, medical and psychological specialists
- describe the types and/or categories of insurance policies associated with financial, medical and psychological claims
- describe analysis tools used to assess financial, medical and/or psychological assessments to calculate loss damages.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance services field of work and include access to:

- organisational records
- organisational policy, procedures, legislation and regulations as they relate to contracts of insurance
- a range of common technology and software.

Assessors must satisfy NVR/AQTF assessor requirements.
