Release: 1

Assessment Requirements for FWPCOR2206 Work effectively in the forest and wood products industry

Modification History

Release	Comments
Release 1	This version released with Forest and Wood Products Training Package Version 7.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has:

- identified one workplace requirement relevant to personal scope of activity that relates to each of the following:
 - workplace health and safety
 - employment
 - environmental protection
 - quality
 - security
 - confidentiality
 - reporting lines
- used equipment and tools appropriate to the work activity to complete assigned tasks for one work period/shift according to workplace instructions and quality requirements
- used and maintained personal protective equipment (PPE) and clothing to ensure personal safety
- identified, planned, prioritised and implemented work activities for one work period/shift
- asked feedback on own performance from supervisor and identified own skill development needs.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- commonwealth, state or territory legislation and regulations, standards, codes of practice and workplace procedures relevant to the individual's job role in the forest and wood products industry, including:
 - workplace health and safety

- employment
- environmental protection
- quality
- security
- confidentiality
- reporting lines
- workplace behaviour and conduct standards
- format and content of work order
- techniques for planning and prioritising work activities
- factors that may influence the quality of own work activities and outcomes and how to recognise these
- purpose, method and requirements for monitoring own work activities and outcomes within own scope of work
- functional, operational and maintenance aspects of tools and equipment used in the individual's job role in the forest and wood products industry
- workplace procedures regarding use of PPE for own work activities
- ways to identify own skill development needs.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a forest and wood products industry workplace or an environment that accurately represents workplace conditions
- resources:
 - tools, equipment and PPE relevant to work task
- specifications:
 - work order or instruction detailing work to be carried out
 - manufacturer specifications
 - commonwealth, state or territory legislation and regulations, standards, codes of practice relevant to work task
 - workplace procedures relevant to work task.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
