Assessment Requirements for FWPCOR3205 Apply safety, health and environmental requirements in forest and wood products operations

Modification History

Release	Comments
Release 1	This version released with Forest and Wood Products Training Package Version 7.0

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that, for one work period/shift, the individual has applied workplace safety, health and environmental care (SHE) requirements while performing personal work tasks related to a forest or wood products operation, including:

- identified workplace safety, health and environmental care (SHE) goals, policies and procedures relevant to own scope of activities
- assessed, controlled and reported one SHE hazard and associated risks in own work area
- used equipment and materials according to workplace SHE policies and procedures.

There must be evidence that the individual has made one recommendation for the improvement of documented SHE procedures based on actual onsite setting/conditions and SHE work practices.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- workplace SHE goals, policies and procedures related to forest or wood products operations:
 - purpose of workplace SHE goals, policies and procedures
 - implications of non-compliance with workplace SHE goals, policies and procedures
 - techniques for monitoring compliance with SHE policies and procedures
 - ways of responding to incidents of non-compliance with SHE policies and procedures
 - processes for monitoring workplace SHE outcomes
- SHE hazards and associated risks related to forest or wood products operations:
 - types and impact of hazards
 - processes for the assessment, control and reporting of SHE hazards

- processes for improving work practices to mitigate SHE hazards
- SHE incidents and emergencies related to forest or wood products operations:
 - types and impact of SHE incidents and emergencies
 - processes for responding to SHE incidents and emergencies
 - procedures for reporting SHE incidents and emergencies
- personal protective equipment (PPE) and clothing and their properties
- integrating care for the environment, safety and health into day-to-day forest or wood products activities:
 - ways of integrating care for the environment, safety and health into day-to-day activities
 - reasons for integrating care for the environment, safety and health into day-to-day activities.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a forest or wood products work environment or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - PPE
 - recording tool for reporting SHE hazards and associated risks
- specifications:
 - SHE policies and procedures relevant to the work activity.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
