area/work site**

Assessment Requirements for FWPCOT3312 Implement environmentally sustainable work practices in the work area/work site

Modification History

Release	Comments
Release 1	This version released with FWP Forest and Wood Products Training Package Version 6.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has planned, implemented and monitored the outcomes of one environmental sustainability and resource efficiency improvement plan in a real or simulated workplace.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- environmental protection requirements related to a workplace:
 - safe disposal of waste material
 - safe use and storage of chemicals
 - minimisation of carbon emissions and noise
 - cleaning of plant, tools and equipment
 - care of surrounding environment
- workplace standards, requirements, policies and procedures associated with environmentally sustainable work practices:
 - environmental risks and hazards
 - procedures for minimising environmental impact
 - using energy effectively and efficiently
 - using material effectively and efficiently
 - environmental and resource use efficiency issues specific to industry practices
- sources of information on systems and tools for assessing environmental sustainability and the efficiency of resource use in the workplace.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in the workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - systems and tools for assessing environmental sustainability and the efficiency of resource use in the workplace
- specifications:
 - access to workplace environmental policies and procedures applicable to environmental sustainability and resource efficiency
 - access to workplace procedures and forms for recording environmental sustainability and resource efficiency information.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
