Assessment Requirements for FWPCOT5210 Contribute to establishment and implementation of forest management systems

Assessment Requirements for FWPCOT5210 Contribute to establishment and implementation of forest management systems

Modification History

Release	Comments
Release 1	This version released with FWP Forest and Wood Products Training Package Version 7.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has participated in the development, implementation and monitoring of a forest management compliance system or process that is relevant to one area of operation of a forestry organisation.

In doing this activity, the individual has:

- determined and reported on the compliance requirements of one area of operation of a forestry organisation in relation to:
 - commonwealth, state or territory law
 - local government regulations
 - international treaties, conventions and initiatives
- recommended processes for forest management and feedback systems and methods for gathering and monitoring forest management information
- assigned appropriate roles to personnel, facilitated appropriate training of personnel and implemented a feedback system
- made recommendations for required changes to forest management systems based on consultation and analysis.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- objectives and key content of commonwealth, state or territory and local government laws and regulation relevant to forest management:
 - land ownership
 - boundary management
 - environmental management
 - access

- silviculture
- harvesting
- forest protection
- methods to access, locate and select applicable objectives and key content of international and national treaties, conventions and initiatives
- key objectives of the current forest certification standards in Australia
- factors to be considered in assessing forest management issues inherent to different types of forests
- contemporary forest management issues that impact on the organisation and its practices
- scope of forest operations and activities of the organisation, including:
 - operations in national parks
 - other operations on public land
 - operations on private land
 - timber growing and harvesting
 - fire management
- techniques for monitoring forest management systems and processes for compliance with laws, international treaties, conventions
- strategic and operational factors impacting on organisational forest management processes and decision making, including:
 - fire management planning
 - flora and fauna planning
 - planning for environmental protection and monitoring
 - regulatory compliance issues
 - compliance with international treaties, conventions and initiatives
 - location and nature of sites
 - organisational policy and operational guidelines
 - public liabilities and exposure to risk
 - risk management strategies and policies.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a forest work environment or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - computers, keyboards and software used to create system documents
 - commonwealth, state or territory laws and local government regulations (or plain English documents issued by regulators) relevant to forest management
 - international treaties, conventions and initiatives relevant to forest management

- publications and journals relevant to forest management
- specifications:
 - workplace safety and environmental policies and procedures applicable to forestry operations
 - industry and workplace-specific forest management systems and processes
 - workplace policies and procedures for documenting forest management systems and processes.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
